

January Newsletter

Everyday Explorers

It hard to believe that it is already 2019. We did a lot of mixing last month. We even got to revisit some of our favorite experiments on the last day.

In January, we will continue our experimenting. We will be learning about some of the simple machines and how they make things easier for us.

January 7: Wheel & Axle

January 14: Level

January 21: NO School – MLK Day

January 28: Inclined Plane

We be looking at each simple machine one at a time. We will be doing some building of each machine and exploring how they help us. We will be doing some experiments, reading books, and using our hands to explore!

If you have any questions or concerns, please don't hesitate to contact us.
